

For Inkjet Printer i-Plus LIGHT

For light coloured Cotton, Polyester or Poly & Cotton Blends

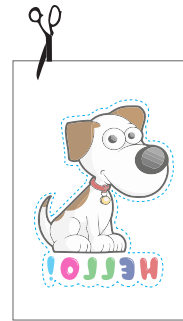

1

- Use the Multi-function Tray or Bypass tray.
- Print in Mirror Image on the white side
- Set Paper Type: Plain Paper
- Printing Mode: Photo Quality

2

Allow the print-out to dry thoroughly for 20-30 mins. (Do not touch any parts of the image as the ink is still wet.)

3

Trim the image out with about 5mm bleed.

4

Flip over the printout and position it onto the T-shirt.

5

Lay T-shirt flat on the heat plate. Cover the whole T-shirt with Baking Paper or Tracing Paper.

180°C x 12 sec

6

Heat Press @ 180°C for 12 sec in medium pressure.

7

Peel off i-Plus Light immediately while hot. (Or else the backing paper will stick onto the fabric)

WASHING SUGGESTIONS

- Wash only after 24 hrs for the first time
- Turn garment inside out
- Machine wash in warm or cold water
- Do not apply fabric softener or bleach
- Do not soak in water
- Tumble dry on low setting
- Do not iron on the imaged area
