

A4 SUBLIMATION COTTON LIGHT PAPER

For White and Light Coloured Cotton Fabric only (Not for Polyester).

1

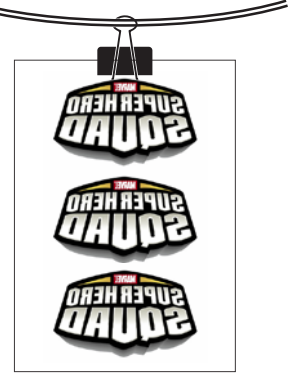

Print the image on the smooth side of the Cotton Light Paper by Sublimation Inkjet. Image in mirror effect

mirror effect

2

Allow the print-out to dry for a few minutes. (Do not touch any parts of the image as the ink is still wet.)

3

Once the ink is totally dry, trim our your desired portion.

4

Position the Cotton Light Paper onto the cotton fabric, image facing down and secure with thermal tape.

5

Lay flat on the heating table and cover the whole T-shirt with baking paper.

6

Heat Transfer at 190°C for 15 sec.

7

Immediately remove the Cotton Light Paper carefully while hot.

8

Cover with a new piece of baking paper (Do not re-use baking paper as it might dirty the printed T-shirt.)

9

Heat Transfer at 190°C for 10 sec to strengthen the print.
